Dear Sirs:

I am writing to show opposition to SB 650.

After reading the bill, I wonder what this would actually accomplish and who it would hurt and what might really be the end game. Sometimes I can't believe we are having this discussion again. As if passing a law would stop a criminal.

I know so many people who are leaving this occupied state. My home is currently on the market. I can't imagine anyone moving to this state who owns a gun. I can't imagine anyone moving to this state who believes in liberty.

I am a person with very, very limited knowledge of firearms. I am also a mother of two young children and a school teacher. But, I recognize that these bills are all about slowly stripping away our rights. Connecticut has done enough.

I am very cynical and it seems every day I am given more and more reason to be cynical between what is going on nationally and in our state, which sadly should be called the anti-Constitution state.

Thank you for the opportunity to be heard.
